

VEHICLE GRAPHICS

Put your marketing in the fast lane!

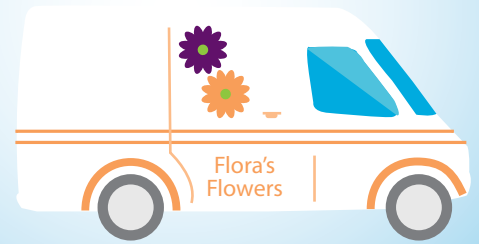

ADVERTISING AT A FRACTION OF THE COST.

Mobile graphics get noticed – and at a fraction of the cost of traditional media like print, television, radio and online, according to the Outdoor Advertising Association of America.

DOOR-SIDE SIGNS; GREAT FOR DOOR-TO-DOOR DELIVERIES.

Magnetic door-side signs earn a bouquet for versatility! Use them on vehicles that perform double duty for both work and personal use. They're readily removed after work, or easily transferred to other vehicles.

WR-WRA-WRAP YOUR VEHICLE!

Choose a partial or full wrap. Thin, adhesive-backed vinyl, they reproduce graphics brilliantly. Expertly fitted and highly durable, they later come off readily at the time of sale or lease turn in.

GIVE CAR-TOP SIGNS THE GREEN LIGHT.

Ideal for taxi cabs and other vehicles, our car-top signs adhere to steel roofs with magnets. Bright idea: Illuminate your sign with power from a battery, cigarette lighter or hard wiring..

LOOK OUT! IT'S A WINDOW GRAPHIC.

Choose vinyl lettering or one-way graphics for side and rear windows. Those on the outside can see your message (at eye level!), but drivers can see out.

NOTHING TO PROMOTE?

Our framing systems display seamless sheets on flat-sided trucks and trailers. Have a truck or trailer but nothing to promote? Profit from this "real estate" by advertising for others!
